SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK  
ON APPLICATION 050210707

REF: 2006 BLUE LANTERN GUIDEBOOK

1.This is an Action Request. See paragraphs 2-4.

12. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Post's assistance in conducting a pre-license check on application 050210707 for the export of International Traffic in Arms (ITAR)-controlled Wall Mount Receptacles to Singapore. Post is requested to complete this Blue Lantern inquiry within 30 days. Lack of response to a Blue Lantern inquiry will affect pending and future licenses involving parties to this license.

13. Reason for request: Unfamiliar Foreign/Intermediate Consignees; Diversion concerns.

14. Action: Department requests that Post make inquiries with Singapore Ministry of Defense to establish the bona fides of Foreign Consignee Yatz Electronics and Foreign Intermediate Consignee Precision Technologies Pte Ltd. in the proposed transaction. If possible, conduct site visits to assess the companies' reliability as recipients of United States Munitions List (USML) items as well as their operations and on-site security. Emphasize that the unauthorized re-export or retransfer of USML items is strictly prohibited. Confirm with the end-user that it placed an order for the items listed below for the purpose stated on the application. Determine whether any other Singaporean firms are involved in the procurement of the items.

The following questions are provided as guidance:

--Will the company be handling or storing any of USML items listed on the license application?  
If so, does it have secure facilities and proper accounting and security procedures for handling them?

--When was the company established and who are its principals?

--Does the company appear in Singapore business directories?  
Does it have a website?

- Can your company provide additional documentation firmly establishing its role in the proposed transaction?

- Has the company previously imported or acted as a consignee involving U.S. defense articles requiring a USML license?

- Does your company regularly or otherwise procure defense articles for this end-user? Other end-users?

- Does your company serve as a broker of USML articles (i.e. do they facilitate transactions between parties for the sale/transfer of USML)? If so, with what other locations besides Singapore?

- Does your company have offices abroad? If so, where are they located?

- Has this company ever used any other names?

- What other products are sold by your company?

--What types of organizations are among your typical customers and where are the customers located?

--Does the company understand the restrictions on USML items, especially the prohibition against unauthorized re-transfers and re-exports?

End Action Request.
